

AGANANG INCREASES THE NUMBER OF PLANTS TO IMPROVE SERVICE DELIVERY

Municipal plants ready to deliver: Municipal Manager, Mr Ramakuntwane Selepe, Acting Technical Manager, Ms Patricia Leshilo and Her Worship Mayor, Cllr Maria Mokobodi

Aganang Local Municipality has kept its promises again, this time on making sure that its core mandate of maintaining access roads and internal streets is achieved. The Municipality promised communities during IDP Community Consultations for 2014/15 that it has put aside a budget to purchase two additional graders, low bed truck and Front-end loader. The plants were bought and delivered recently and are fully operational. The purchasing of the additional two graders will help the municipality in improving the current backlog of grading roads within our villages.

The Municipality has assembled a fleet of 12 plants that will enable it to live to the expectations of the community. This fleet is comprised of five graders, two TLB's, two tipper trucks, a water tanker, low bed truck and a front-end loader. Currently, the Municipality through Technical Services Department has a daily grading schedule which ensures that municipal graders are dispersed accordingly to different villages. Our communities will enjoy the leisure of driving through maintained roads and streets

Aganang Council appreciates municipal plants during inspection together with Technical Staff

Her Worship Mayor, Cllr Maria Mokobodi says a well-equipped technical department is key for any municipality to deal with basic community needs. She said the municipality is committed to its core mandate and will continue to service the communities.

We further remind our communities especially Schools and Sports Associations to submit their grading requests through Ward Councillors on time to avoid disappointments. “Grading of internal roads after heavy rains will always be prioritised in order to keep our communities connected to major roads. The Municipality will continue servicing the community with the pool of plants purchased”, concluded Her Worship Mayor, Cllr Mokobodi
